

RECOVERHOPE

2025

**ANNUAL
REPORT**

Prevent Restore Support

LETTER FROM CEO

In 2025, Recover Hope exceeded its outreach goals. We reached 4,650 people through outreach, education, and events, and our message extended to an estimated 430,000 additional viewers through TV and Mike King’s podcast.

We also expanded into Hopewell, Prince George County, and Dinwiddie County, and we look forward to continued growth in each community. We were honored to have the Hopewell Police Department host a raffle in support of the future Restoration Station home. The drawing took place at the house, raising \$1,200 and bringing together officers, police academy cadets, board members, and volunteers.

Linda Hawkins
(to the right)
RN BSN,
President/CEO
Recover Hope, Inc

Thank you to hometown hero and New England Patriots player TreVeyon Henderson for his support with a signed jersey. The Tri-Cities Chili Peppers supported our annual fundraiser, Field of Dreams: If You Build It, She Will Come, by donating a signed cosmic baseball for auction and signed regulation balls for centerpiece raffles.

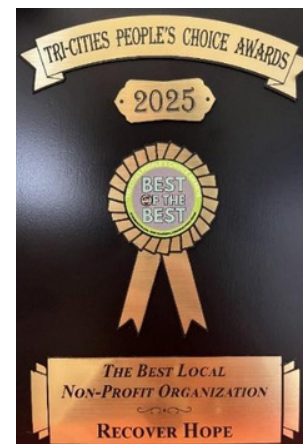

Our law enforcement partners and local fire personnel joined us for one of our most relaxed annual events to date. While warm weather limited some outdoor activities, the event was a success thanks to our phenomenal event team. We also supported Prince George County’s back-to-school ImpactPG by delivering three training sessions for educators, with space expanded to accommodate strong attendance.

This year, we welcomed several new, board members with diverse skills and professional backgrounds— to help guide and strengthen our mission.

We continued collaboration with Wellspring Living in Atlanta, preparing key documents for when God's opening day arrives for Restoration Station. We continued to educate and equip neighbors, communities, and local businesses while strengthening partnerships across the region. CMA, Carter Meyers Auto Colonial Chevrolet hosted a fundraiser Car Show with River City Cruizers. We are so blessed to be partnered with them in the community.

Chesterfield County launched a mandated MDT (Multi-Disciplinary Team) that brings together key partners to pursue justice and restoration for human trafficking victims. Working together allows us to share what works, adjust what doesn't, and better meet the unique needs of each survivor.

Recover Hope also strengthened support for long-term survivors and launched a parent support and advocacy group for families whose children were victimized and are now adults. These parents are raising awareness so others may be spared trauma they have experienced. We also began visiting neighboring churches and scheduling training for church leadership. Unfortunately, we have seen a concerning uptick in cases—***no community is immune***. Our goal is to equip leaders and prevent exploitation whenever possible.

Looking ahead, we will deepen support in Dinwiddie, Prince George, and Hopewell. We will also continue promoting education resources—aligned to SOL standards—through a sister organization in Lynchburg for our local education partners.

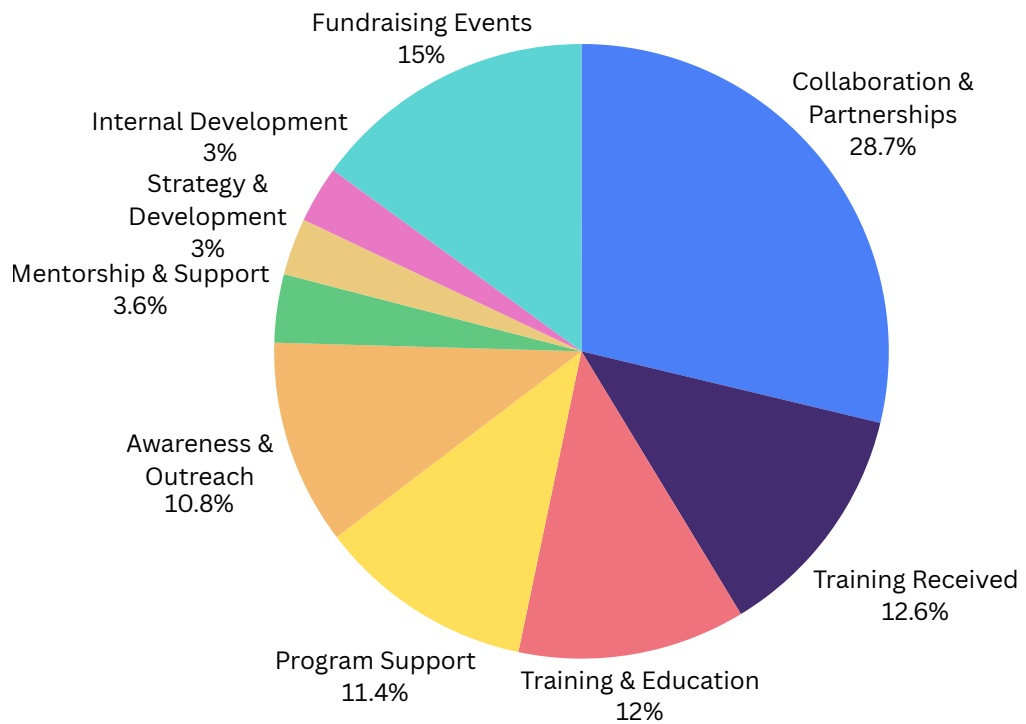

There is room for you to join us in protecting our community. It takes many hands to fulfill God's work. We hope to see and work with you in 2026—consider scheduling training for you and your team.

Blessings,
Linda
